Export Database-SHEFEXIL-Users' Guide

The database is prepared for SHEFEXIL's members and it includes comprehensive details such as the HS Code and Description used by Importing country, Tariff Preferences provided by the respective FTA member countries, Staging category of FTA, Export Statistics etc.

The database was created during the months of May and June, 2016. Since the data is subject to change/amendments, user must refer the updated information from the respective websites. Details of websites and sources of information are given in a separate worksheet of this database, viz. "SOURCE OF INFORMATION". From these sources one can find updated details on tariff preferences as well as MFN Rates.

How to Use the Export Database?

1. The export database is an Microsoft Excel file containing 147 products of SHEFEXIL with their HS Code, Description, Respective country's HS code and Description for the same, MFN rate, staging category, preferential tariff rate and export statistics.
